About Us

Our clay set is the world's largest DIY Clay set appealing to both children and adults. We are dedicated to develop the most useful art & craft sets with reasonable and accessible pricing. The tools and accessories in the set are planned by clay artists with a goal to break the limits of creativity.

Genova Art is an international wholesale art & craft materials supplier with locations in Turkey, Hong Kong, China and the United States. CraftyClay is our modeling clay brand and represented by Antallia Enterprises Inc. in the United States.

“One Gift – All Smiles” Concept

CraftyClay is one of the best family fun and group activity sets in the market. With one gift, all family can enjoy together.

Kids love to play the clays together with parents. And modeling clays are very interesting and enjoyable for adults as well.

01. police car

Make a big cuboid and a small one and stick them together as shown in the picture

Make ovals and press them flat with your palms

Use scissors to cut the ovals into trapezoids

Make four windows as shown in the picture

Paste the windows onto the police car

Make four long and thin strips

Paste them onto the window edges and cut the excessive parts

The windows are finished

Make a cylinder, press it flat and cut it into a trapezoid

Paste the trapezoid onto the car front

Make two ovals and press them flat

Paste the ovals onto the door areas

Make four balls of the same size, slightly press them into tires and paste them on the two sides of the car

Make four smaller balls, press them flat and paste them into the tier centers

Make two big and two small circles and paste them onto the car front as lamps

Make a strip and shape it into a car plate; make two small circles as lamps

Make two water drops, press them flat to make rear mirrors and paste them in the way shown in the picture

Use the impressing tool to impress treads on the tires as shown in the picture

Make a long strip and three shorter ones and stick them together to make the police light as shown in the picture

Paste the light onto the car roof

Make two short strips and paste them onto the centers of left and right windows

The police car is done

02. plane

Prepare the parts as shown in the picture

Use the biggest water drop to make the fuselage and the medium ones to make wings and paste them as shown in the picture

Make engines by pasting flattened circles onto the small water drops as shown in the picture

Make two engines on each side

Make windows using the blue clay and paste them in the way shown in the picture

03. rocket

As shown in the picture, make a shuttle, small circles and a water drop

As shown in the picture, make three triangles and slightly press them

Paste the red water drop to the rocket bottom as flame

Make windows using the small circles and paste them on sides

Paste the yellow triangles onto the rocket

04. ship

Make three ovals of different sizes and slightly press them

Make two semicircles and one small circle and press them slightly

Impress lines on the two semicircles

Paste the small circle onto the semicircle top and surround it with a strip

Surround it in the way shown in the picture

As shown in the picture, make three strips and six circles

Stick the three ovals together in the order shown and impress lines on the bottom with the impressing tool

Encircle the hull with the strip

Impress lines on the white hull strip

Paste it in the way shown in the picture

Paste the six circles on the two sides, with three on each

Make the pole the way shown in the picture

Paste it the way shown in the picture

Cut aluminum wires short and wrap them with white clay

Make cuboids and press them flat to make sails

Paste them the way shown in the picture

The ship is done

05. car

Prepare the materials as shown in the picture

Slightly press the cuboid front end with a finger to shape a seat, which is shown in the picture

Paste the seat onto the car body and paste the car front parts

Encircle the car front with the white strip and paste the lamps

Make tires the way as shown in the picture

Press the three long strips flat

Stick them together as shown in the picture to make the cab

Paste it to the seat front

Paste the two small ovals to the cab

Paste the wheels to the two sides

Make the fender and the car is done

06. jeep

Prepare materials as shown in the picture

Paste them as shown in the picture

Paste doors

Paste the small blue rectangle to the big one

Paste the black strip to the front as the bumper

Paste the wheels to the two sides

Paste the plate to the front

Place the seats into the jeep

Paste the lamps to the front and back

07. fire truck

Prepare the required materials as shown in the picture

Paste the two cuboids into the body and make wheels

Paste the wheels the way shown in the picture

As shown in the picture, paste windows, front decorations and roof

Paste the warning lights to the roof

Use yellow clay to make lamps, encircle the windows with black strips as frames and paste the seven short columns to the roof

Paste the long strip to the columns as the railing

Make the ladder the way shown in the picture

Place the ladder on the truck top

Make a ladder stand and paste it to one side of the truck

Encircle the truck body with the yellow and white strips to complete the truck

08. tank

As shown in the picture, prepare the materials

Using the tool to hole the tires

Use the impressing tool to impress treads on the tires

Use brown strips to encircle the tires

Make tank tracks as shown in the picture

Paste the tracks to the two sides of the body

Paste the ovals and water drops the way shown in the picture and impress patterns on them

Paste accessories to the two sides of the body

Make the rear fender

Use the flattened strip to encircle the column

Make the other parts as shown in the picture

Pick the parts for making the launcher

Paste the balancing stand the way shown in the picture

Make the launcher body

Paste the launcher to the tank top to complete the tank

09. beetle

Prepare the required materials as shown in the picture

Paste small circles to the big ones to make tires and impress treads on them

Encircle the flattened water drops and rectangles with strips

Paste short strips to the tire top as wheel brows

Paste the plate, lamps and bumper to complete the beetle

10. school bus

Prepare the materials as shown in the picture

Use fingers to press one end of the cuboid to shape the bus front

Paste the roof to the body top and paste windows

Paste small circles to the red ones and impress lines on them

Paste brown strips to the bus as decorations

Paste the tires to the two sides of the bus

Install the bumper and plate

Install lamps and water drop-shaped rear mirrors

The school bus is finished

11.train

Prepare the required materials as shown in the picture

Impress patterns on the window and paste it to the cab

Make a roof over the cab top and paste it the way as shown in the picture

Paste the strip around the column

Paste it to the cab front

Make wheel shafts as shown in the picture

Connect the three shafts using the black strip

Make the chimney as shown in the picture

Paste it the way as shown in the picture

Paste three strips to the trapezoid as front fenders

Paste the fenders to the front to complete the train

12. little car

Make three cuboids and combine them together

Make a wide flattened strip as the door and encircle the body with a long strip

Use pink clay to make rear mirrors and white and blue to make windows

Make four small balls and shape them flat into wheels

Paste the wheels and other accessories to the car to complete the steps

01.little sheep

Mix and knead blue and white clay to create the sky blue, use white and gray clay to make little stones and green clay to make conical grass

Paste the shaped pond onto the grassland and place the little stones along the pond

Make a few white strips, twine them into wool shape and paste them onto the body

The sheep is done

Paste the sheep and grass onto the lawn

Use white clay to make a cylinder as the sheep body and knead black clay into the head, horns, limbs and tail

Fix the head and horns and paste them onto the body

Pierce two nostrils on the sheep using a knife and paste the eyes

Make a fence

Paste the fence as the last step

02.owl

Prepared the clay parts needed for making an owl

Joint the head and talons.

After pasting the belly, use a knife to carve the pattern on the belly

Paste the eyes and nose

Make the pattern on the head top to complete the steps.

03.tiger

Make a cuboid and cut an opening on two ends using scissors

Split the opening

Bend the clay manually as shown in the picture to complete the tiger body

Paste the black strips onto the body

Join the ball-shaped head to the body

Make eyes and ears and paste them to the head

Make the pattern on the head

Make the nose and mouth the way shown in the picture

Make whiskers after joining the nose and mouth

Make a tail to complete the tiger

04.pig

Prepare the clay parts needed as shown in the picture

Join the ears and body

Make a nose for the pig and use tools to pierce nostrils

Make limbs

Make a tail to complete the pig

05.cat

Prepare the clay parts needed for making a cat

Paste the ears

Make the five sense organs for the cat

Paste the tail

Continue to paste the limbs and bell to complete the cat

06.dinosaur

As shown in the picture, prepare all the clay parts for making a dinosaur

Make the head

Make the body as shown in the picture

Properly adjust the body

Joint the head and body

Use white clay to make the belly

Make eyes and paste them to the right area

Make the backbone

Use a knife to carve stripes on the belly

Continue to use the knife to carve the pattern on the feet

The dinosaur is completed

07.cock

Make a cone and use scissors to shape serration

Prepare the clay parts as shown in the picture

Joint the cock head to the body

Continue to paste the tail, wings and beak

Make claws and the comb, join all the parts together and the cock is done

08.koala

Prepare the clay parts as shown in the picture

Paste the ears and head together

Paste the eyes and nose

Paste the body to the head

Paste the limbs and tail and draw the pattern on the limbs to complete the koala

09.nemo

Prepare the clay parts needed as shown in the picture

Make white rectangles and black strips

Paste them the way shown in the picture

After shaping the mouth, place the finished pattern on the body

See the picture

Make the pattern on the fins

Encircle the fins with black strips

Make eyes

Place them on the body

Joint the parts together

It is done

10.elephant

Prepare the clay parts needed

Make the ears as shown in the picture

Make the trunk

Joint the ears and head

Paste the trunk

Continue to paste the eyes and eyebrows

Make limbs

Make a little flower

See the picture

It is done

11.cow

Prepare the clay parts needed

Make the head

Pierce nostrils

Place the eyes

Joint the body and head together

Make limbs

Paste the limbs to the body

Paste the tail

Make the pattern on the body

12.fox

Prepare the clay parts needed

Make the head as shown in the picture

Press the part flat

Make ears

Joint them together

Slightly press the head using fingers

Paste some white clay as whiskers

Use a knife to carve the whisker pattern

Paste the nose and eyes

After the clay fully dries, take the brooch, apply glue and stick the fox to it

It is done

13.pig group

Take a big amount of brown clay

Use a rolling pin to press the brown clay flat and shape it into an oval as the base

Make the blue pond part in the same way

Press white strips flat to achieve the ripple effect

Place the pond and the brown base together

Use gray clay to make the external big stones

Use gray clay again to make the small stones along the pond

Use wires as branch interiors and wrap them with brown clay to make the branches as shown in the picture

Place the branches on the base

Make the clothes parts as shown in the picture

Paste them together as shown in the picture

Place the black buttons and straps and dot the pants as the seams

Make the other yellow pants in the same way

The two pairs of pants are then completed

Next make pigs. Prepare the clay parts as shown in the picture

Joint them together

Add details to the ears

Make the other white pig in the same way. Next make pigs. Prepare the clay parts as shown in the picture

The two pigs are completed

Prepare the parts for making a swim ring

Make the swim ring the way as shown in the picture

The swim ring is completed

Properly place the accessories. You may also dress the pigs with the swimwear

14. blue mouse

Use blue clay to make the head

As shown in the picture, make the ears, nose and mouth and use black clay to make whiskers

Make the body and limbs and dress the mouse with a white diaper

Add a little tail to the mouse and paste the limbs and head

The mouse is done

15.brown cat

Take a moderate amount of coffee clay and make a ball as the head

Make the ears, eyes and eyebrows

Make the nose, mouth and whiskers

Make the body and join it to the head

Add a tail to the cat and it is done

16.cow

Take a moderate amount of purple clay to make the head, ears and horns

Make the eyes and nose and use a tool to pierce nostrils

Shape the body using fingers

Make the tail and feet and use orange clay to make circles as the pattern on the body

The cow is completed

17.black rabbit

Take a moderate amount of black clay to make the head and ears

Make eyes

Make the nose and cheeks

Make the body and little tail

Join the head and the body together and the rabbit is completed

18.sea dragon

Make the head and use black and white clay to make eyes

Use orange clay to make dragon horns

Join the horns to the head and use a tool to pierce the nostrils

Use a tool to make the ears

Paste the ears to the head

Make the body

Use light blue clay to make the belly, carve the pattern on it and make the big tail

Join the head and the body together

Make the back bone as shown in the picture

Paste the bone to the back of the dragon

The dragon is completed

19.snake

Make the head, eyes and nostrils and use a tool to draw the mouth

Make the tongue and put it inside the mouth

Paste the pattern to the head

Make the body part and decorate it with little dots

Join the head and the body together

20.horse

Take a moderate amount of brown clay to make the head and ears

Refine the ears

Make eyes and nostrils for the horse

Make the body and little tail

Add black clay to the limbs and tail

Join the head and the body together

Make a black strip, press it flat and carve the hair stripes

Paste the hair to the body

The horse is completed

21.black goat

Take a moderate amount of black clay to make the head, eyes and ears and then brown clay to make horns

Use red clay to make balls as the cheeks

Prepare the body and limb parts using black clay

Join the body and the limbs together

Paste the head and the body and the black goat is completed

22.monkey

Take a moderate amount of orange clay to make a slightly flat ball as the head

Use white clay to make a circle and cut an opening as the face

Take a moderate amount of white clay, split it into two parts, make two balls and use a tool to press on the balls to shape the ears

Paste the finished ears to the two sides of the head

Use black clay to make eyes, nose and mouth

Use red clay to make balls as the cheeks

Use orange clay to make the belly and limbs

Use white clay to make the belly skin

Join the head and the body together

Use orange clay to make the tail and the monkey is done

23.chicken

Take a moderate amount of yellow clay and make a water drop as the head; use orange clay to make three water drops of the same size as the comb

Join the finished comb with the head

Use black clay and make circles as the eyes; use white clay to make the light in eyes

Use red clay to make a triangle as the beak and use a tool to make the cheek color on the mouth sides

Use yellow clay to make the body and wings and use a tool to carve the wing texture

Use yellow clay again to make the feet and tail and carve texture on the feet

Join the finished feet with the body

Paste the tail to the tail part

Join the finished head with the body

It is done

25.swan

Use a moderate amount of clay to make the neck

Use a moderate amount of white clay to make the body

Use a moderate amount of orange clay to make the bill and black clay to make eyes

Use a moderate amount of white clay to make wings

Carve texture on the wings to complete the swan

26.black goat

Take a moderate amount of black clay to make the head, eyes and ears and then brown clay to make horns

Use red clay to make balls as the cheeks

Prepare the body and limb parts using black clay

Join the body and the limbs together

Paste the head and the body and the black goat is completed

27.hedgehog

Use a moderate amount of purple clay to make a water drop as the body

Use a moderate amount of white clay to make the head

Use purple clay and slightly less white clay to make two triangles as the ears and then make eyes, snout and cheeks

Mix a small amount of purple clay and a large amount of white clay to create light purple clay

Use the light purple clay to make the spines and the hedgehog is completed

28.bee

Use a moderate amount of yellow clay to make a ball as the body; use black clay to make long strips and encircle the body with the strips

Use black clay to make two small balls as the eyes

Use red clay to make two small balls as the cheeks and coffee clay to make water drops as the antennae

Use blue clay to make two circles and paste them to the body as wings

Use black clay to make a triangle and paste it to the tail part as the stinger. The bee is done

29.snail

Mix a moderate amount of white and red clay into pink clay. Shape the pink clay into a water drop as the body

Use some purple clay to make the long strip as shown in the picture

Roll the purple strip up as the shell

Stick the body and the shell together

Use white and black clay to make eyes and the snail is done

30.frog

Use some green clay to make a pie shape as the body

Use green clay to make water drops as the feet; use a tool to press the feet to shape toes

Use white and black clay to make eyes

Use white clay to make a semicircle and a clay tool to press texture on it as the mouth

Use red clay to make the cheeks and the frog is done

31.lion

Use some yellow clay to make a ball and slightly press it as the face

Use orange clay to make triangles as the hair. Use a tool to press at the edge with the same distance to shape the hair texture

Use yellow clay to make two triangles of the same size as the ears

Use black clay to make two circles of the same size as the eyes

Use white clay to make flat circles as the mouth and paste them onto the head

Use a clay tool to pierce texture on the white clay; use black clay to make the nose

Use yellow clay to make a water drop as the body

Use yellow clay to make two upper limbs and paste them onto the body

Use yellow clay to make two lower limbs and paste them onto the body

Paste the head and the body together; use yellow clay to make a tail and paste it to the tail part

Use a small amount of orange clay to make the tail tip and the lion is completed

32.brown bear

Use some coffee clay to make a ball as the head and two balls as the ears. Use a small amount of white clay to make the face

Use black clay to make the eyebrows, eyes, nose and mouth

Use red clay to make the cheeks

Use coffee clay to make a water drop as the body and two small water drops of the same size as the arms

Make another two small water drops of the same size as the legs. Use white clay to make the soles and then join the body and the head together

Use a small amount of coffee clay to make a small ball as the tail

Use black clay to make two flat water drops and one circle to shape a bow tie

Use white clay to make some circles and paste them onto the bow tie as decoration

Paste the finished bow tie to the location as shown in the picture

Take a moderate amount of blue clay

Shape the blue clay into a heart and put it on the hands to complete the bear

33.panda

Use a small amount of white clay to make the head and then the eyes and ears as shown in the picture

Use black clay to make the triangular nose and then pink clay to make cheeks

Use white clay to make a water drop as the body

Use a small amount of black clay to make small water drops of the same size as the shoulders, and paste the shoulders to the body

Use a small amount of black clay to make water drops as the arms

6

Use a small amount of black clay again to make the legs

7

Join the head and the body together

8

Use a small amount of white clay to make a small ball as the tail

9

The panda is completed

34. fox

1

Use some red clay to make a water drop; use red clay again to make two triangles of the same size and press them to shape the ears

2

Use black clay to make two small balls as the eyes and a triangle as the nose

3

Use black clay to make a few slim strips and paste them to the two sides of the nose as whiskers

4

Use red clay to make a water drop as the body

5

Use white clay to make a water drop, press it flat and paste it to the body as the belly skin

6

Use red clay to make two groups of water drops of two different sizes as the limbs

7

Paste the head and the body together

8

Use green clay to make small water drops, and paste them together to shape a flower as the head decoration

9

Use red clay for the tail, shape it into a water drop and you may slightly bend it

10

Use white clay to make a cone and paste it to the red tail part

11

Join the finished body to the tail part and the fox is completed

35. squirrel

1

Use some coffee clay to make the head and triangles as the ears; use black clay to make the eyes

2

Use white clay to make two small circles, pierce texture on them and paste them onto the face as the mouth; make a rectangle and paste it below the mouth as the teeth

3

Use a tool to shape the teeth gap

4

Use pink clay to make a triangle as the little nose

5

Mix some coffee and black clay to create dark brown clay. Knead it into strips and paste them to the head as the pattern

Use coffee clay to make a water drop as the body; use white clay to make an oval, paste it to the body as the belly skin and use a tool to shape lines on the skin

Use coffee clay to make water drops as the limbs

Use coffee clay to make a water drop and shape it into the tail as shown in the picture

Bend the tail and paste it to the body

Paste the head and the body together

Use red clay to make a love heart, put it on the hands and the squirrel is completed.

36.elephant

Use a moderate amount of blue clay to make a ball, slightly squeeze it to shape it into the head

Use some blue clay to make a water drop as the body

Join the body and the head together

Use blue clay to make two groups of small water drops as upper and lower limbs respectively

Use white clay to make small circles and paste them to the limbs as toes

6

Paste the upper limbs to the body

7

Paste the lower limbs to the two sides of the body bottom

8

Use blue clay to make water drops and slightly press it as the ears

9

Paste the ears to the two sides of the head

10

Use black clay to make balls as the eyes

11

Use blue clay to make a strip as the tail and the elephant is completed

37.giraffe

1

Use a moderate amount of yellow clay to make a smooth ball as the body

2

Make the limbs by pinching the body along the mark

3

Use yellow clay to make a cylinder and paste it to the body as the neck

4

Use coffee clay to make circles of different sizes and paste them onto the body

5

Use coffee clay to make a strip and paste it to the rear part of the body as the tail

6

Use some yellow clay to make a smooth ball as the head

7

Use coffee clay to make a pie shape and paste it to the head as the mouth

8

Use yellow and coffee clay to make triangles as the ears

9

Use coffee clay to make strips and balls and paste them to the head as the horns

10

Use black and white clay to make the eyes

11

Paste the head and the body together to complete the giraffe

38.parrot

1

Use some red clay to make a water drop as the body

2

Use white clay to make an oval and paste it to the body as the belly skin

3

Use orange clay to make strips and join them together as the feet; then make cylinders and paste them to the strips

4

Paste the feet to the body

5

Use white and black clay to make the eyes

6

Use black clay to make the beak

7

Use green clay to make water drops, press them flat and paste them to the two sides of the body as the wings

8

Use a clay tool to shape the wing texture

9

Use dark blue and light blue clay to make water drops and paste them to the head

10

Use yellow clay to make a bow tie and paste it under the beak to complete the parrot

39.blue owl

1

Use some blue clay to make a ball and slightly press it as the head; make two small triangles as the ears

2

Use a small amount of white clay to make a circle as the belly skin and use a tool to shape texture on it

3

Use white and black clay to make the eyes

4

Use a small amount of orange clay to make a triangle as the bill

5

Use blue clay to make the wings and black clay to make the feet and the owl is done

40.crocodile

Use some green clay to make a water drop as the body; use fingers to shape the head into a rectangle

Use a clay tool to squeeze the head part to shape the mouth

Use a clay tool to press two shallow pits on the head as the eye sockets

Use green clay to make two balls and paste them to the eye sockets as the eyelids

Use white clay to make two balls of the same size as the eyeballs

Use black clay to make balls and paste them to the eyeballs as the irises

Use green clay to make two balls, paste them above the mouth and use a tool to shape the nostrils

Use green clay to make two water drops as the front legs

Use a knife-shaped tool to shape the sole texture; make the rear legs in the same way

Use blue and green clay to create dark green clay

Use the dark green clay to make a few triangles and arrange them on the back to complete the crocodile

41.butterfly

Use a large amount of red clay to make two big water drops and two small ones as the wings

Use blue clay to make an oval and slightly press it as the body. Use a knife-shaped tool to shape the pattern on the body

Use flesh colored clay to make a ball and join the finished wings, head and body together

Use white and black clay to make the eyes and coffee clay to make water drops and paste them to the top as the antennas

Use purple clay to make circles, paste them to the wings as the pattern, use red clay to make the mouth and the butterfly is completed

42.leopard

Use orange clay to make a ball as the head, orange and white clay to make triangles as the ears, then white clay to make cheeks and mouth, and use a tool to shape the texture

Use black clay to make the nose and whiskers and black and white clay to make the eyes

Use a moderate amount of orange clay to make a water drop as the body and orange clay to make the limbs and tail

Use coffee clay to make circles of different sizes and randomly paste them onto the body

Join the head and the body together and the leopard is done

43.little frog

Shape two balls for making the body

Make four small balls for making the eyes

Press the spring into the ball and fix it

Paste the other ball onto the spring

Paste the eyes

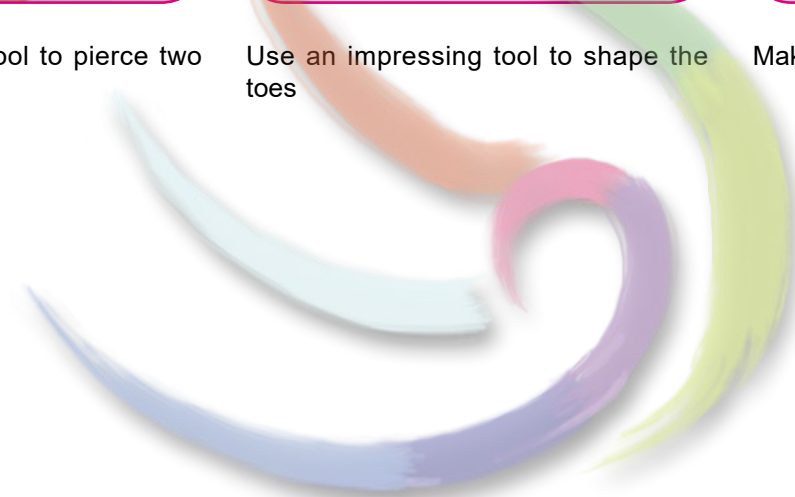

Use an impressing tool to pierce two holes

Use an impressing tool to shape the toes

Make the mouth and the frog is done

44.little panda

As shown in the picture, prepare the clay materials needed

Make a big ball and a small one

As shown in the picture, make four small black balls

Shape the small balls into the shape as shown in the picture

Make a strip as shown in the picture

Encircle the bottom side with the strip and paste two feet

Use a tool to complete the bottom side

Make small balls as shown in the picture

Make two holes using an impressing tool

Paste the ears and eyes

The panda is completed

45.reindeer

Make an oval, slightly press it and paste eyes onto it as the head

Make the ears

Make the antlers

Paste the red mouth

Make the body part and join it to the head

Make the limbs

The reindeer is done

46.little tiger

Make the head, body and limbs

Join the head, body and limbs together and paste white clay to the head

Use black clay to make balls as the eyes and strips as the mouth

Paste the little ears and paste black clay strips to the arms

Paste the tail

47.bear

Make the head, body and arms

Use yellow clay to make the bear base

Paste the body to the base

Paste the head and arms to the body

Paste eyes and nose to the face and shape the mouth

Use white and blue clay to make the cap

Dress the bear with the cap

48.black cat

Make the head and ears

Make the body and tail

Use a tool to mark the locations of mouth and eyes

Use yellow and blue clay to make the eyes and nose and pink clay to make the mouth

Paste the tail to the body

49.rabbit

Make three balls first

Make another bigger ball as the body and make the limbs

Use orange clay to make a few carrot shapes and green clay to make the stems

Put one carrot onto the left hand of the rabbit

Then put the other carrots under the feet to form the whole picture

50.little dinosaur

Make a ball first, and then shape one end into the neck and head and the other end into the tail part

Make the limbs and paste them to the body

Use different colors of clay to make semicircles and paste them to the back, white clay to make the eyes and black clay to make the irises

Use white and yellow clay to make the dinosaur eggs

Use brown clay to make a trunk and blue and green clay to make the leaves. Arrange all the accessories together

51.little pig

Make a red ball and press it

Make another pink ball, press it and use it to cover the red ball

Use pink clay to make an oval, put it in the middle below the eyes and slightly press it as the nose. Make the ears

Paste the limbs to the sides of the pig

Make a tail and paste it to the back of the pig. Use white clay to make teeth and black clay to make eyes and the pig is done

01.sea lion

As shown in the picture, prepare the parts needed

As shown in the picture, join all the parts together

Use an impressing tool to pierce two holes on the nose

Use the impressing tool to impress the two sides of the body to make fins

The sea lion is completed

02.turtle

As shown in the picture, prepare the materials needed

As shown in the picture, paste all the parts together

Paste the finished small circles to the limbs and back

The turtle is done

Paste the bottom part of the turtle

Use an impressing tool to carve stripes on the bottom

Then carve more stripes crosswise

03.seahorse

As shown in the picture, prepare the parts needed

Use scissors to cut excessive parts off the rectangle as the back

Use an impressing tool to shape a fin and paste it to the left side of the seahorse

The seahorse is done

04.starfish

As shown in the picture, prepare the parts needed

Paste all the parts together and use an impressing tool to pierce holes on the yellow circles

The starfish is done

05.aquarium

Make an oval and thin one end

Use an impressing tool to shape a shell

Paste the seagrass and marine animals to the frame

Paste the shell to the frame

The marine creature framework is done

Thin one end of the clay to make seagrass

Paste clay to the four sides of the wood frame

The frame is done

06.octopus

Prepare the clay parts needed for making the octopus

Join the arms together

Use black and white clay to make the eyes

Paste them together

Paste little yellow dots to the octopus and it is done

07.penguin

Prepare all the parts

Use an impressing tool to shape the footprint

Join all the parts together

Remove the film off the spring and paste the penguin to it

The penguin is done

01.gingerbread House

Put **clay** on the white paper board and spread the **clay** until it covers the entire board

Use an impressing tool to pierce holes on the green clay

Paste the accessories to the house

Make **balls** and press them flat

Paste the circles onto the roof

Make ovals, press them flat and thin one end. Use an impressing tool to shape the texture as leaves

The house parts are done

Make green and red strips and twine them the way shown in the picture

Use an impressing tool to press on the circles

Make white strips and paste one to the roof

Paste the finished leaves to the side of the Christmas tree

Make small balls and put them on the roof

As shown in the picture, make the gift parts

Encircle the small cube with white strips

The gingerbread house is done

Make a bow tie

Continue to put small balls

Apply golden jam

02 .christmas tree

Make the main body of the Christmas tree as shown in the picture

Use scissors to shape the leaves

See the picture

You may make little colorful balls

Paste the balls to the tree, make a star and place it on the tree top

03.christmas tree

Use cardboard to make a cone as the main body of the Christmas tree

Make some strips as shown in the picture

Use scissors to shape the strips the way shown in the picture

Make leaves of different sizes and colors in the above way and use colorful clay to make little balls and a star

Put the balls and star and the Christmas tree is done

O4.christmas man

Use flesh colored clay to make a ball

Make the eyebrows and nose

Continue to install the beards

Make two little flesh colored balls as the ears

Paste the ears to the face

Make the beards

Make the Santa hat

Continue to make the beards

Make red dots as the cheeks

Prepare the body part

Make the hands the way shown in the picture

Join them together

Make a belt for the Santa Claus

Paste the leJoin them together

Carve the beard texture

Carve the hair texture

It is done

05.christmas sock

As shown in the picture, prepare the clay parts needed

Use scissors to shape the furry texture of stockings

Join the parts together

Decorate the stocking

Make fruits for the stocking and it is done

06.christmas house

1 Prepare a paper cup as the main body of the house and trim it to a suitable size

2 Use a roll pin to press the gray clay flat

6 Prepare the external wall decorations of the house

7 Make windows for the house

8 Make roof decorations

3 Wrap the paper cup

4 Make the roof as shown in the picture

5 Connect the house and the roof

9 Spread shimmering powder on the roof to make the house more attractive

10 Start to decorate the external wall

11 Make a little walking stick and paste it to the external wall to enrich the decorations

07.christmas house

Use cardboard to make the house base

Use brown clay to lay out the external wall

Make some white strips

Pinch the strips the way shown in the picture

Arrange it the way shown in the picture

Paste colorful balls and a star onto the roof

Prepare the door and window silhouettes

Paste them to the house

Add details to the door and window

Add the window frame

Paste a star as the decoration to complete the house

08.deer

Make the shapes shown in the picture

Cut the two shapes in the middle

Make the legs

Make the five sense organs

Use red clay to make a long strip

Paste the yellow and brown clay together as the head

Make the body silhouette

Make the antlers

Make a collar

Join the body and the head together

Paste the other parts to complete the deer

09.pumpkin

Use orange clay to make a ball and use a tool to carve the pumpkin texture

Prepare other parts needed

Join the parts together

Complete one pumpkin

You may also make a pumpkin with a different look

10.bat & ghost

Prepare the clay parts needed and use scissors to shape the wings

Paste the eyes and ears

Prepare the mouth and wings

Add details to complete the bat

Make the ghost as shown in the picture

01.white flower hair clip

Make leaves as shown in the picture

Use an acrylic plate to press the white clay flat

Use an impressing tool to impress flower shapes

Use a knife to carve texture on the petals

Add yellow cores

See the picture

Add leaves to the flowers

You may use glue to paste the flowers to the clips

It is done

02.deer hair clip

Prepare the clay materials for the deer

Spread the yellow clay to cover the entire clip

Make the head

Continue to complete the remaining part

The deer hair clip is done

03.flower frame

Use pink clay to make flowers and then a tool to impress the petal texture

Make four leaves and paste them

Use an impressing tool to shape leaves

As shown in the picture, the leaves are done

Thin one end of the white clay

Use scissors to shape flowers

All the accessories are prepared

Use glue to paste the flowers to the frame

Use a tool to assist the pasting

Use green clay to make a strip-shaped vine

Twine the vine among the flowers

04.flower ring

Prepare the clay materials needed

Use an impressing tool to press on the flattened circle

Prepare three colors of clay and shape them into balls

Make the balls into strips

Roll the strips up as flowers

The flowers are done

Continue to make flowers

Paste the flowers to the blue clay

Paste the wreath to the ring and the flower ring is done

Take a white clay and press it with a pressing tool to make the white petal

Paste the white petal to the wreath and the wreath is done

Apply glue to the ring

05.flower ring

Prepare the materials

Use an impressing tool to pierce holes on the circular clay to make the core

Apply glue to the ring

Surround the core with the petals and paste it to the ring

Wear the ring and it is done

06.clown keychain

As shown in the picture, prepare the materials needed

Join all the clown parts together

Pierce the keychain into the clown end

The clown keychain is done

07.dolphin keychain

As shown in the picture, prepare the materials

Use blue clay to make a ball and thin one end as the body

Slightly bend the pointy end down

Press the white clay flat and thin one end as the belly

Join the white and blue clay together

Impress the belly using an impressing tool

Make the tail and fins

Paste the tail and fins to the body

Paste the eyes

Use an impressing tool to shape the mouth

Mix the white and blue clay

Thin one end of the mixed clay

Paste the thin ends together as the back

Use an impressing tool to pierce a hole on the body

Paste the back to the hole

Hang the keychain at the mouth

01.flower pot

Make a pot as shown in the picture

Prepare a few pieces of circular clay

Use an impressing tool to impress the circular clay to shape petals

Make red petals

Paste the petals orderly, put in the core and insert the peduncle. The flower is done

Make oval clay, thin one end and use an impressing tool to impress it

Put all the petals and leaves in the pot orderly

Prepare circular clay and the impressing tool

The heart shape is done

The flower pot is done

Take out the part other than the tool itself

Press the impressing tool on the circular clay

Press the tool handle to push out the heart shape

02.plant

Prepare the materials as shown in the picture

Paste the parts together to make a pot

Use the impressing tool to pierce holes

Make little petals as shown in the picture

Make the cactus

The pot is done

Prepare the materials as shown in the picture

Use an impressing tool to impress the rectangle

As shown in the picture, prepare the materials needed

Paste the pieces of clay together to make the succulent

Make the vine

The vine is done

As shown in the picture, prepare the materials needed

Use an impressing tool to pierce holes on the green clay to make the cactus

All the plants are done

Make some balls as stones and put them in the pot

Put the plants orderly in the pot and the plant pot is done

Paste the flower to the cactus

As shown in the picture, prepare the materials needed

Paste the pieces of clay together and the succulent is done

03.pink rose

Make pink strips as shown in the picture and press them flat using a pressing plate

Use a knife to add details to the leaves

Roll up the pink strips and paste the petals

Paste the leaves

It is done

04.water lily

Prepare pink and white clay

Mix them the way shown in the picture

Make the gradient petals as shown in the picture

Adjust the petal shape using fingers

Use green clay to make the lotus and a knife to pierce dots

Press green clay into circles as the lotus leaves

Carve texture on the leaves

Wrap a wire with green clay as the peduncle

All the materials are prepared

Start to paste the petals

Join the flower parts together

05.pink flower

Use pink clay to shape petals and then a tool to carve the petal texture

Take five pieces of core parts from the materials

Fold the core

Surround the core with the petals

Put the petals one by one to shape a blooming flower

06.fleshy flower pot

Take white and black clay

Make strips using the two colors of clay and mix them together, but do not completely mix them evenly

Put the fertilizers in

Mix light green clay with a small amount of clay, but keep the two colors separate

Shape the petals

As shown in the picture, divide the strip into a few pieces as fertilizers

The fertilizers are done

Make a flattened circle, use a finger to slightly press the middle part to make a pot

Put the petals in the pot one by one

The plant pot is done

Paste a few pieces of candy to the pot exterior

01.cookie

Make a ball

Use fingers to slightly press it

Use a toothbrush to pierce dots

Pierce holes using an impressing tool

Use black clay to make grape seeds and put them in the holes

02.cake

Prepare the clay as shown in the picture

Shape the flesh colored clay into a cylinder and use a tool to carve the cake pattern

Use an acrylic board to shape white clay into strips

Twist the three white strips

Cut it to an appropriate length

Place it on the sponge as cream

It looks the way shown in the picture

Use green clay to make the cherry leaves

Place the cherries and leaves

Spread the candies to make the cake more vivid

The cake is done

03.cake

Prepare the clay materials as shown in the picture

Mix the colors

Use a pressing plate to shape cakes

Make four layers

Make two pieces consisting of two layers each

Then join the two pieces together and use a tool to add texture to it

See the picture

Squeeze the chocolate paste

Spread the candies

It is done

04.cake

As shown in the picture, prepare the materials needed

Make two flattened circles of different sizes as the cake base

Use an impressing tool to impress the strip

Make the figure's head

Paste the arms

Paste the feet

Make a rainbow using blue, pink, red and yellow clay

Use an impressing tool to impress the flattened circles

The cake is done

Spread heart-shaped candies around the cake

It is done

Put the finished rainbow behind the little figure

Make cookies

Put the cookies around the cake

05.cake

Prepare brown and yellow clay and press them to shape flat strips

Paste the two strips together

Roll up from one end to make the cake

Make two strips, with one standing on the other

Manually shape the cream

Place decorations on the cream

The cake roll is completed

Apply golden paste

It is done

O6.sandwich

Take a piece of yellow clay, press it flat and use scissors to shape a triangle

Mix and knead red and white clay without completely mixing them to make the bacon

Put the vegetables on the first piece of sandwich

Put the egg

Put the bacon on the second piece of sandwich

Manually shape the vegetable strips

As shown in the picture, prepare all the materials

Use scissors to cut the excessive parts

Use a tool to pierce holes on the third piece of sandwich

Paste the first and second pieces together

Cover them with the third piece to complete it

07.hamburger

Prepare the clay parts as shown in the picture

Make the bread part

Make the tomato part

Make the beef part

Make a layer of eggs

Use an impressing tool to impress the bread to shape the texture

Make the vegetable part and use a tool to shape the texture

See the picture

Paste the parts together

Use white clay to make the sauce

Place the vegetable and cover it with the bread to complete the hamburger

08.french fries

Use yellow clay to make chips

Take a piece of red clay, press it flat and shape it into a rectangle

Place the chips in the red rectangle

Use red clay to wrap the chips

Put them on the white plate and add the red sauce

09.hot dog

Prepare the clay materials as shown in the picture

Shape the flesh colored clay into bread and use an impressing tool to shape a strip in the middle

Make the sausage

Use yellow clay to make strips as the mayonnaise

Place it on the hot dog and it is done

10.ice cream

Prepare the parts as shown in the picture

Make a white snow ball and use a tool to shape the texture

Paste the two balls together

Add the chocolate paste

Add decorations

Mix a little bit red clay and relatively more white clay without completely mixing them evenly

See the picture

Use a tool to make the details

Place heart-shaped candies

It is done

You may also make a chocolate flavored ice cream in the above method

11.sundae

Prepare the clay parts as shown in the picture

Use red clay to make red balls

Place white clay the way shown in the picture

Put the strawberries

Use pink clay to make a strip and place it

Make a small strawberry and use an impressing tool to pierce holes on it

Continue to make more strawberries

Put a pile of light pink clay on the bottom

Use white clay to make strips and twist them as cream

Place the cream

See the picture

Squeeze red sauce onto it

Spread candies onto it

Make Oreos

Put them on the sundae

Trim it using a tool

It is done

01.pirate

Make the head and ears

Use black clay to make strips as the hair

Make the five sense organs and moustache

Continue to assemble the hair part

Make a big beard

Assemble the beard part

Make a hat and paste it to the head

Prepare the clothes for the body part

Make a zipper for the clothes

Make clothes details

Make the buttons

Use scissors to shape a rectangle

Make the body part

Make the belt

Join the head and body together

Make the hands

Add details to the sleeves

Continue to add details

Continue to paste the hands to the body

Make the legs

Use pigment to draw colors on the foam plate

Make a sailboat and paste the pirate to it

Add some details to the sailboat

02.little girl

Prepare the clay parts as shown in the picture

Join the head and hair parts together

Use a tool to shape the hair texture

Make the ears

Make the eyes

When the clay dries, use a pen to draw the mouth and nose

Make a bow tie

Make a hair band for the girl

Prepare the girl's body parts

Join the spring and the body together and then paste the limbs

The girl is completed

03.bride and groom

Make the groom's head first

Press black clay flat to make the hair

Paste it to the head

Use an impressing tool to make the hair texture

Thin one end of the black clay to make the sideburn part

Use an impressing tool to make the texture

Join the hair part to the head

Add hair details

Make the pants

Prepare a wire

Insert the wire into the upper body and connect it to the legs as support

Make the five sense organs

Make the body and neck

Use scissors to cut the excessive part

Connect the upper and lower body parts

Prepare another wire

Connect the head and the body

The broom is done

Start to make the bride's head

Make the hair part using brown clay

Make little sideburns

Paste the sideburns

Make the bun

Make the hair texture

Continue with the hair

Add detailed texture

Paste it to the head

Continue to complete the five sense organs

Make the wedding dress

Use a tool to make the texture

Use white clay to make a strip and then a roll pin to roll it flat

Use fingers to shape the pattern shown in the picture

Use a tool to shape the pattern shown in the picture

Paste them onto the wedding dress

Use pinky white clay to make strips

Paste the pattern to the wedding dress

Use the roll pin to roll white clay flat into an oval

Divide the oval into two halves

Paste them to the wedding dress as decorations

Make the neck

See the picture

Make the hands

Make a bridal bouquet for the bride

Put it into the bride's hands

Paste the head to the body and the bride is completed

Put the groom and the bride together

01.bed

Knead it into steelblue color

Prepare brown, blue and white clay materials as shown in the picture

Paste the three colors of clay together

Prepare the bed parts as shown in the picture

Use an impressing tool to impress the headboard

As shown in the picture, the bed head is completed

Make two fillet rectangles and press them flat; make strips to twine the rectangles as pillows

Put the finished pillows on the bed and it is done

02.chair

Prepare the parts as shown in the picture

Use an impressing tool to impress the backrest

Make a strip and paste it to the edges of the backrest

Make a flattened circle, thin one end and put a ball on the upper part

Use an impressing tool to pierce a hole on the ball

The backrest is done

Paste the finished decorations to the armrests

Join the armrests and backrest together to complete the chair

Make a small circle and a big one and press the big one flat

Use an impressing tool to pierce a hole on the small circle and carve the big one to complete the throw pillow

Put the throw pillow on the right of the chair and it is done

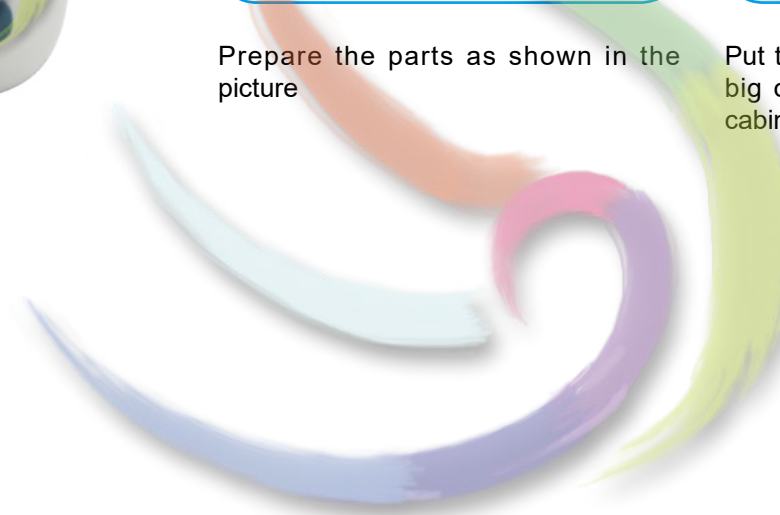

03.cabinet

Prepare the parts as shown in the picture

Put the small cuboid on the top of the big one and paste the handles. The cabinet is done.

04.bedside table

Use an impressing tool to pierce a hole on the flat circles

Prepare the parts as shown in the picture

The table is done

Paste the flat circles to the table front and encircle the table with the brown strips

Make a small ball, slightly press it and use an impressing tool to impress it to make a vase

Make cylinders, thin one end and insert them into the vase

The bedside table is completed

Prepare the accessories as shown in the picture

Make the table lamp by pasting the accessories together in the way shown in the picture

05.washer

Prepare the parts for making the washer

Use scissors to cut excessive parts

Paste decorations

Continue to paste decorations

Put clothes on the washer

06.desk

Make a big cuboid and press it flat; use an impressing tool to pierce dense dots on the cuboid as a carpet

Prepare the parts as shown in the picture

Paste the parts together to make a desk the way shown in the picture

Put the vase on the desk

A desk set is done

07.sofa

Prepare the parts as shown in the picture

Combine the parts to form a sofa

Make four cuboids and slightly press them flat as throw pillows

The sofa is done

Put the finished desk with the vase and a set of furniture is completed

01.potato

Make an oval and slightly press it to make the potato

Paste the eyes

Use an impressing tool to pierce a hole on the potato as the mouth

The potato is done

02.eggplant

Paste the leaves to the top of the eggplant

As shown in the picture, make a cylinder, thin one end and slightly bend it to make the eggplant

Paste the eyes on the eggplant and it is done

Prepare the eye parts and leaves as shown in the picture

03.tomato

Paste the eyes and the lovely tomato is done

As shown in the picture, use red clay to make a ball; then make five ovals, press them flat and thin one end to make the leaves

Paste the leaves to the ball to make the tomato

04.broccoli

Prepare the materials as shown in the picture

Use an impressing tool to pierce holes on the balls

Paste the finished balls to the top of the cylinder to make the broccoli

The broccoli is done

05.corn

Make a cylinder and thin one end

Use an impressing tool to carve the pattern on the cylinder to make the corn

Paste the yellow peels to the corn surface and the corn is completed

06.pepper

Make a cylinder

Use an impressing tool to impress the cylinder to make the pepper

As shown in the picture, paste the leaves to the pepper and it is done

07.vegetable basket

Prepare the parts as shown in the picture

Prepare the parts as shown in the picture

Make six ovals of the same size as eggs and put the vegetables made previously into the basket

CraftyClay
